Industrial Sorter Operator

Tomorrow RDS, LLC is a well-established company whose core business is recycling, processing, and marketing of materials. RDS operates four different facilities across three different states, servicing the recycling needs of thousands of companies and households. RDS is committed to recovering as much material as possible from the waste stream for both the short- and long-term health of our environment.

RDS has an excellent opportunity for an entry level warehouse position with opportunities for advancement. Initial tasks include the sorting and separation of recyclable products to ensure quality. Learning how to take care of the process machinery and understanding our products line will come naturally to the right individual. As you progress there will be a chance to learn to operate various machinery around the facility which will lead to opportunities for advancement as an equipment operator. Must be dependable, on time, and have transportation to our facility. Prior warehouse experience preferred but not necessary. No experience necessary as we will provide training.
